THINGS GREEN WITH NICK FEDEROFF KEEP CALM AND EL NIÑO ON

There is a greater than 90% chance that El Niño will continue through the Northern Hemisphere winter 2015-16, and around an 85% chance it will last into early spring 2016. It is for this reason that "Things Green: Keep Calm El Nino On" will be featured for three months at the South Coast Botanic Garden, southern California's El Nino Preparedness Help Center kicking off the display with a live television broadcast on Saturday, November 7, 2015 at 9AM on KLCS.

Things Green: Keep Calm El Nino On, a hands-on display and television set for our special KLCS broadcasts is exclusively located at the South Coast Botanic Garden, is designed to help take the fear out of this natural disaster by showcasing tips, tricks, ideas and remedies on what to do before rains begins to fall. And, if for some reason you get caught off guard information will be available for resources to contact.

Airs live on Saturday, November 7th at 9AM and repeats Sunday, November 8th at 4:30PM

Explore the most extraordinary places on the planet in this three-part series. Visit six continents to learn how these natural wonders evolved and hear rarely told stories about the challenges their inhabitants face.

Airs Sundays at 7PM beginning November 15th

NOVA ANIMAL MUMMIES

It wasn't just their pharaohs that the ancient Egyptians bundled up for the next world. Huge underground vaults were packed from floor to ceiling with a menagerie of mummified beasts—everything from falcons and ibises to cats and dogs, monkeys, shrews, fish, beetles, bulls, and crocodiles. Animal mummies were cranked out on an industrial scale to feed a nationwide obsession, including a staggering 8 million preserved dogs at one site alone. So why did they do it? NOVA joins a team of leading Egyptologists who deploy the latest medical imaging to peer beneath the wrappings without damaging the animal bodies inside. The results are enlightening, often surprising insights into the weird beliefs and practices that clung to the Egyptian quest for immortality.

Airs Sunday, November 15th at 6PM and Tuesday, November 17th at 7PM

RICK STEVES' EUROPEAN CHRISTMAS

From manger scenes and mistletoe to wintry wonderlands, Rick Steves' European Christmas celebrates the Christmas season throughout the European continent. In the special, Rick visits friends and families in England, France, Norway, Germany, Austria, Switzerland and Italy to reveal their customs and practices of the holiday season. He begins his travels in England, where the Christmas pudding is the real centerpiece of a traditional English holiday meal. In Paris, the Eiffel Tower heralds the season with its red, twinkling lights. And in the countryside of Tuscany, villagers stack neat pyramids of wood for great bonfires. The lighting of the fires is a signal to villagers — dressed as shepherds — to come and sing old carols. Rick Steves' European Christmas offers a colorful, musical celebration of Christmas across Europe where viewers will learn about customs from "the old countries," hear local choirs, and discover holiday family traditions.

Airs Thursdays, November 26th at 8PM and Sunday, November 29th at 11AM

NATURE CAT

PBS KIDS new series Nature Cat follows Fred, a house cat who dreams of exploring the great outdoors. In each episode, once his family leaves for the day, Fred transforms into Nature Cat, "backyard explorer extraordinaire." Nature Cat can't wait to get outside for a day of backyard nature excursions and bravery, but there's one problem: He's still a house cat with no instincts for nature. Like many of today's kids, Nature Cat is eager and enthusiastic about outside activities, but is at times intimidated by them. With the help of his animal friends, Nature Cat embarks on action-packed adventures that include exciting missions full of nature investigation, "aha" discovery moments and humor, all while inspiring children to go outside and "play the show."
