## TAIWAN: A CULTURAL DISCOVERY

This two-part documentary, produced by KLCS, follows 16 Mandarin language teachers from across Southern California on an excursion through Taiwan as they spend two remarkable weeks immersing themselves in the language, culture, food and rich history of the island-nation.

Southern California is home to the largest Chinese speaking community in the United States. As the global interest in learning Mandarin increases the demand and expectation of students rises. Teachers must continually broaden their knowledge base and expand the breath of their teaching to meet the student demand.

With the goal of sharpening their teaching skills and a passion for their craft, educators from a wide range of schools and universities including Bellflower School District, Chaffey College, East Los Angeles College, Los Angeles Unified School District, UC Irvine and UC Santa Barbara embark on a shared journey of learning and discovery. Hoping to gain additional knowledge and experiences for the benefit of their students back home, these educators learn from some of Taiwan's pre-eminent lecturers, visit historic landmarks, immerse themselves in the local customs, participate in traditional ceremonies and create deep bonds with colleagues and peers.

KLCS produced this documentary with the support of the Taipei Economic and Cultural Office in Los Angeles and the documentary was included in the celebration of Taiwanese Heritage Week in May.

## SKY BLUE SEA

Sky Blue Sea captures the excitement, the exhilaration, the celebration and the poignant tragedies of the bold and daring in Long Beach, California. Blessed by nature with abundantly clear blue skies and the deep blue sea, Long Beach was home to many of the most significant developments and accomplishments in America's naval and aviation histories. From 1910 to 1990, Long Beach naval and aviation activities made worldwide headlines and featured the most famous entrepreneurs, aviators, pioneers and daredevils. Warm weather coastal fascination enticed presidents such as Theodore Roosevelt, Woodrow Wilson, Franklin Roosevelt and Ronald Reagan...all of whom encouraged U.S. Navy expansion in Long Beach. The sky was no limit for the adventurous but rather a proving ground for pilots and pioneers like Amelia Earhart, Howard Hughes, Charles Lindbergh, William Randolph Hearst, Donald Douglas and many more.

## NOVA

### INVISIBLE UNIVERSE REVEALED

Twenty-five years ago, NASA launched one of the most ambitious experiments in the history of astronomy: the Hubble Space Telescope. In honor of Hubble's landmark anniversary, NOVA tells the remarkable story of the telescope that forever changed our understanding of the cosmos and our place in it. From its inception through its early days, when a one-millimeter engineering blunder turned the telescope into an object of ridicule, to the five heroic astronaut missions that returned Hubble to the cutting edge of science, NOVA hears from the scientists and engineers on the front line who tell the amazing Hubble story as never before. This single telescope has helped astronomers pinpoint the age of the universe, revealed the birthplace of stars and planets, advanced our understanding of dark energy and cosmic expansion, and uncovered black holes lurking at the heart of galaxies. For more than a generation, Hubble's stunning images have brought the beauty of the heavens to millions, revealing a cosmos richer and more wondrous than we ever imagined. Join NOVA for the story of this magnificent machine and its astonishing discoveries.

## THE AGE FIX WITH DR. ANTHONY YOUN

Everyone ages whether they like it or not. But it doesn't mean that some signs of aging can't be fixed. Have you ever thought that it would be great to have friend, who just happened to be a plastic surgeon, and you could ask anything and get a straight answer? Someone who won't judge you about your insecurities but would open up a world of insider tips, tricks, and secrets from the fields of beauty, dermatology, and plastic surgery? Well, now you do - because that's Dr. Tony Youn. Yes, plastic surgery trims waistlines and reduces wrinkles, but in *The Age Fix*, Dr. Youn gives easy home remedies to save you thousands of dollars and achieve the same results without surgery. Dr. Youn's goal is to offer you a way to fix your age-related skin concerns, without having in-office treatments, painful surgery, or spending a lot of money. While he acknowledges there are some instances where the only real good option is actual surgery, in most cases he offers ways to turn back the clock in a significant way without even seeing a doctor, much less a plastic surgeon. Throughout *The Age Fix* Dr. Youn reveals tips, tricks, and secrets - natural anti-aging tips plastic surgeons don't want you to know. With the simple changes he discusses, you'll look younger on the outside and be younger on the inside. He'll share with the single best cream to put on your skin to prevent aging, and the best cream to reverse aging, and even prevent future skin cancers. And he gives simple and easy treatments to improve most aging concerns, like age spots, wrinkles, and under eye puffiness. He demonstrates do-it-yourself anti-aging treatments, reveals the best products to tighten your skin, and simple dietary changes that can make you look and feel years younger. Your skin will glow, and you'll probably notice a few pounds fall off in the bargain. His patients love it, and viewers will, too.
