## SUPERHEALING SECRETS WITH DR. ELAINE FERGUSON

The latest scientific breakthroughs have revealed the true creators of health and causes of disease, and correct the myths sometimes taught in medical schools - as well as the standard conventional medical wisdom that governs our health care system. Cases of chronic diseases, heart disease, cancer, diabetes, Alzheimer's, hypertension, obesity, depression, anxiety and others are rapidly increasing, affecting millions of Americans. We're also getting sicker younger and faster. Tragically, 80% of these cases are preventable. Dr. Elaine Ferguson reveals five amazing SuperHealing Secrets, research-based facts, that most doctors don't know or share with their patients, because they didn't learn them in medical school. Dr. Ferguson explains why our genes and DNA and family medical history are irrelevant, and do not determine health or control our destiny. She talks to the audience about why our emotional health is more important than diet or exercise plan; how to help cells reverse chronic disease and aging; and the most powerful ingredient vital to our health and wellbeing. She also shares a powerful health formula that helps them to understand how their 50 trillion cells actually function; empowering them with powerful tools and techniques to take charge of their health, prevent and reverse chronic diseases, and create the good health they desire and deserve. Based

on her international bestselling book, *Superhealing: Engaging Your Mind, Body and Spirit to Create Optimal Health and Well-Being*, Dr. Ferguson also shares her SuperHealing program, a research-based, comprehensive disease reversal and well-being program, that has helped thousands of patients to improve their health. Dr. Ferguson is a pioneer in the field of integrative medicine, best-selling author, wellness consultant, and health coach author. She is a graduate of Brown University, Duke University School of Medicine and the University of Chicago.
